

SU600 SERIES

Outdoor Drinking Fountain

The SU600 is a strong and robust fountain perfect for schools and outdoor areas. Australian-made and fully WaterMark approved, the range can house an additional bottle filler with integrated catchment tray for on-the-go refills. The range is available in two standard colours or you have the option to retain the body's industrial galvanised finish.

KEY FEATURES

- Vandal resistant 316 stainless steel security screws
- Stainless steel basin
- Available in hot dipped galvanised or powder coating (2 colours)

Sturdy and resilient as it dispenses pure water, Aqua Cooler's new SU600 water fountains are at home anywhere in the outdoors. A sleek, tall profile keeps the SU600 out of the way in busy thoroughfares while it remains an icon of hydration whether you're in the schoolyard, the park, or even just between meetings in an office complex.
